

ESD Trash Sack Liners

Description

Our ESD Trash Sack Liners are suitable for holding waste in an EPA.

Features:

- Our ESD Trash Sack Liners are made of anti-static polyethylene
- Printed in black (printed in white on the black bags) with ESD caution logo and text onto polyethylene
- Supplied in packs of 100
- Available in blue, pink, green, yellow, clear or black from stock
- Homogeneous, non-amine anti-static polythene film which is effective at low relative humidities (less than 12%).

Specifically designed for the particular needs of the electronics industry. The special additives used do not effect the film clarity or quality, and it is therefore most economical in use, as the standard film thickness can be selected.

Technical Properties	Details
